## RESEARCH INTEREST

AI for Medicine and Science, Health Foundation Models, Multimodal Machine Learning  
Generative AI, De novo Protein Design, Protein Structure Prediction

## EDUCATION

ShanghaiTech University

B.E. in Computer Science and Technology

Shanghai, CHN

September 2023 - June 2027 (expected)

– GPA: 3.73/4.0

– Rank(CS major): 22/176

– Rank(School of Information Science and Technology): 32/266

## AWARDS & HONORS

- 2023 OUTSTANDING MENTOR ASSISTANT, ShanghaiTech University, 2023
- GOLD MEDAL, International Genetically Engineered Machine Competition (iGEM), 2024
- AI HONOR CLASS, ShanghaiTech University, 2024-2027(expected)

## EXPERIENCE

PACIFY project for iGEM 2024 [\[wiki\]](#)

Dec. 2023 - Oct. 2024

Team Member

MakeSense, ShanghaiTech First SensUs Team

Aug. 2024 – present

Co-Founder & Leader of Data Analysis Team

Virtual Reality and Visual Computing Center (VRVC), ShanghaiTech

June 2024 - Oct. 2024

Undergraduate Research Assistant, Supervisor: Dr. Minzhang Li

## TECHNICAL STRENGTHS

Programming Languages

Matlab, Python, C&C++

Framework & Toolchain

PyTorch, Git, Docker, Linux, Rosetta

Misc

L<sup>A</sup>T<sub>E</sub>X, Markdown, CET-6: 646

## PUBLICATIONS

No publication yet.

## COURSE PROJECTS

- NTU Machine Learning 2022 Spring by Prof. Hung-yi Lee [\[code\]](#)
- Protein Design Course Project: OBP design for biosensors

## SELECTED COURSES

○ Postgraduate Level:

Game Theory, Information retrieval and utilization

○ Undergraduate Level:

Linear Algebra, Calculus, Probability and Statistics for Information Science, Data Structure and Algorithm,

Introduction to Information Science and Technology, Introduction to Economics, Introduction to Synthetic Biology: Principles and Applications, Introduction to Programming, Discrete Mathematics, United States History, Protein Design.
